

# Conforma

For years AMF Support Surfaces, Inc. has been a name synonymous with zoned pressure relieving mattresses that were designed to match the shape of the human body. Protected by domestic patents and international patents, this unique method of zoning provides firmness where the body needs support and softness in critical areas. The Conforma family of products combines AMF Support Surfaces, Inc. history with the industry leading expertise of Anodyne Medical Device, Inc. to set a new standard in therapeutic foam mattresses.

## The Conforma family of products includes the following standard features:

- Unique Anatomic Zoning: Five distinct pressure zones to redistribute weight and reduce overall pressure profile
- Built-in lumbar support helps reduce lower back pain
- Heel-Ease: Unique heel slope reduces pressures in critical heel section
- Quality materials treated with anti-bacterial/ anti-microbial agents to help prevent MRSA, infections, and odors from forming
- Articulation Slots allow mattress to bend with bed frame
- Latex-free design

## Conforma IB

FDA side-rail entrapment guidelines have become a hot topic in long-term care facilities across the country. The Conforma IB was designed to keep the patient centered on the mattress, while reducing the likelihood of patient falls. Raised side bolsters were added to the most popular Conforma mattress to increase patient safety and facility compliance with federal guidelines.

- Raised 2" side bolster helps keep patients centered and reduces the gaps between mattress and siderail
- Conforma products meet or exceed the following flammability standards: 16 CFR 1632, 16 CFR 1633, CA TB 117, CA TB129 and BFDIX-11
- Standard Dimensions: 36" x 80". Custom sizes available to reduce gaps between mattress and siderails, while ensuring proper fit on any bed frame
- Two-layer zoned design enhances patient comfort and pressure redistribution
