The problem of obesity is at epidemic proportions with more than 14 million people in the United States seriously overweight and about 5 million so seriously overweight it affects health and life expectancy. According to the National Institutes of Health obesity is now the second leading cause of preventable death in the United States.

The treatment and care of bariatric patients presents special challenges for providers and caregivers. In particular, bariatric patients with limited or no mobility are at extremely high risk for pressure ulcer development. Products must be specially designed to meet the needs of these patients while providing optimum therapeutic results.

SenTech Medical, a leader in specialty support surfaces, has designed and engineered a full product line of support surfaces to meet special bariatric needs. SenTech's team of engineers, working closely with caregivers, is proud to offer the most advanced line of support surfaces designed specifically for the bariatric patient.

The STAGE IV PLUS MATTRESS

STAGE IV BARIATRICS SYSTEMS

The STAGE IV 3000 PLUS and STAGE IV MILLENNIUM PLUS

Supports patients up to 990 lbs.

LOW AIR LOSS MICROVENT TECHNOLOGY

MAXIMUM SHEAR RELIEF

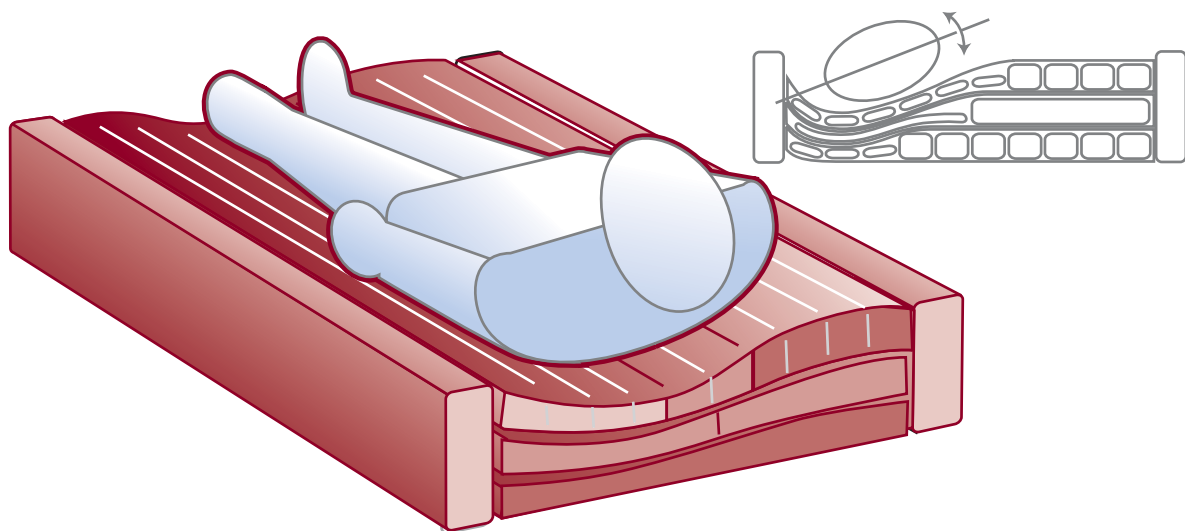

HIGH DEGREE OF TURN

SenTech's new Thera-Turn Millennium Plus is the most sophisticated, yet easy to use lateral rotation system on the market today. And now it's available for the Bariatric Patient.

Incorporating state of the art digital and sensor technology, while supporting patient weights up to 750 pounds, the Thera-Turn Millennium Plus provides superior rotation along with unmatched patient comfort and unparalleled flexibility.

Thera-Turn Millennium Plus Controller

- Easy Interactive Setup Screen
- 4 Pre-Programmed Turning Angles
- Choice of Hold Positions Center, Left or Right
- Choice of Angle-of-Hold
- Comfort Level Setting
- Automatic Filter Display
- Internal Operating Instructions

Specifications Stage IV Millennium Plus & Stage IV 3000 Plus

Electronic Controller:

Dimensions: 14.5" W x 6" D x 12.1"H

Weight: 21 lbs

Electrical Parameters:

Power Requirements- 120V, 60 Cycle AC

Europe: 240V, 50 Cycle <0.5A

Maximum Current-<1.0A

Operating Parameters:

Weight Range:

3000 Plus-80-990 lbs.

Millennium Plus-80-995 lbs.

Height Range-50"-78"

Mattress Replacement (fully inflated):

Height (Inches) 8

Width: (Inches) 42,48,54 & 60

Length: (Inches) 80

Weight: 24-45 lbs

Custom Sizes Available

Specifications Thera-Turn Millennium Plus
