

NatureSleep™ / NatureSleep™ Plus

Anatomic Concepts, Inc. has a rich history of providing high quality therapeutic foam mattresses for all settings. The NEW NatureSleep™ and NatureSleep™ Plus were designed to address fixed-reimbursement, price-sensitive markets. Unlike many competitors using a typical flat construction, the NatureSleep™ products utilize a convoluted top layer to enhance patient comfort and performance. The NatureSleep™ family of products combines Anatomic Concepts, Inc. history with the industry-leading expertise of Anodyne Medical Device, Inc. to set a new standard in therapeutic foam mattresses.
